DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Rex Huang on 06/05/2006.

The application has been amended as follows:

Claim 134: An apparatus comprising;

mass selecting means for selectively ejecting charged particles based on mass-to-charge ratios of the charged particles;

[receiving means] an ion trap for receiving the charged particles elected from the mass selecting means;

detecting means for detecting light emitted from the charged particles in the [receiving means] ion trap to generate a detection signal; and

data processing means for correlating the detection signal with characteristics of the mass selecting means to determine a mass spectrum of the charged particles in the [receiving means] ion trap.

Claim 136: Cancelled

Allowable Subject Matter

2. Claims 30, 31, 74-135 and 137-144 are allowed.
3. The following is an examiner's statement of reasons for allowance: the prior art searched and cited failed to teach or fairly suggest an apparatus having dual ion traps wherein the first ion trap selectively ejects charged particles based on the mass-to-charge ratios of the charged particles; the second ion trap receives the charged particles ejected from the mass selection device; a detector for detecting light emitted from the charged particles in the second ion trap to generate a detection signal; and a data processor for correlating the detection signal with characteristics of the mass selecting means to determine a mass spectrums of the charged particles in the receiving means in combination with the remaining elements of claims 30, 107, and 134. All remaining claims are considered

allowable because of their dependencies upon the above mentioned independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. All of the references cited on attached PTO 892 contain art similar to that being claimed by applicant.
